

WAGENINGEN UR  
*For quality of life*

Arnhem, Netherlands, 23 April 2018

Recommendation Heidrun Herberth

In 2005-2007 Heidrun was **guest lecturer at the Wageningen University** in the optional Master course Intuitive Intelligence. Many students of all study programs and countries of origin attended her lectures. She was appreciated for her clear and connected way of teaching and interacting. She knows what she talks about and can help people get a tangible experience of the subject matter. Her contribution was about astrology, geomancy, personal development, and working with the elements in nature.

Anouk Brack, MSc  
(Lecturer at Wageningen University from 2000 – 2015)
